**Problem – Solution Fit**

| <b>Section</b>                | <b>Description</b>                                                                                                                                                                                                                                                                                                                                                                                                                         |
|-------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Target Customers</b>       | Recruiters, Hiring Managers, Human Resource (HR) Teams, Job Applicants (Candidates), Organizations                                                                                                                                                                                                                                                                                                                                         |
| <b>Customer Problems</b>      | <ul style="list-style-type: none"><li>• Manual resume screening consumes significant time.</li><li>• Candidate information is scattered across emails and spreadsheets.</li><li>• Delays in interview scheduling and hiring approvals.</li><li>• Poor communication between recruiters and candidates.</li><li>• Lack of transparency in application tracking.</li><li>• Difficulty in identifying the most suitable candidates.</li></ul> |
| <b>Current Solutions Used</b> | <ul style="list-style-type: none"><li>• Excel spreadsheets</li><li>• Emails</li><li>• Manual documentation</li><li>• Third-party recruitment portals</li><li>• Paper-based interview records</li></ul>                                                                                                                                                                                                                                     |
| <b>Pain Points</b>            | <ul style="list-style-type: none"><li>• Time-consuming recruitment process.</li><li>• High operational cost.</li><li>• Human errors in candidate tracking.</li><li>• Delayed hiring decisions.</li><li>• Poor collaboration among recruiters and hiring managers.</li><li>• Low candidate satisfaction.</li></ul>                                                                                                                          |
| <b>Proposed Solution</b>      | Develop an <b>AI-Powered Job Recruitment &amp; Candidate Management System</b> using <b>Salesforce CRM, Agentforce AI, Prompt Builder, Lightning Experience, Flows, and Approval Processes</b> to automate recruitment activities and provide intelligent hiring recommendations.                                                                                                                                                          |
| <b>Key Features</b>           | <ul style="list-style-type: none"><li>• Candidate Registration</li><li>• Resume Management</li><li>• Job Opening Management</li></ul>                                                                                                                                                                                                                                                                                                      |

|                          |                                                                                                                                                                                                                                                                                                                                        |
|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                          | <ul style="list-style-type: none"> <li>• AI Candidate Evaluation</li> <li>• Interview Scheduling</li> <li>• Hiring Approval Workflow</li> <li>• Automated Email Notifications</li> <li>• Reports &amp; Dashboards</li> </ul>                                                                                                           |
| <b>Customer Benefits</b> | <ul style="list-style-type: none"> <li>• Faster recruitment process.</li> <li>• AI-assisted hiring decisions.</li> <li>• Centralized candidate database.</li> <li>• Reduced manual effort.</li> <li>• Improved recruiter productivity.</li> <li>• Better candidate experience.</li> <li>• Transparent recruitment workflow.</li> </ul> |
| <b>Value Proposition</b> | The system leverages <b>Salesforce CRM</b> and <b>Agentforce AI</b> to automate recruitment workflows, improve hiring accuracy, reduce recruitment time, and provide intelligent decision support for recruiters and hiring managers.                                                                                                  |
| <b>Success Metrics</b>   | <ul style="list-style-type: none"> <li>• Reduced time-to-hire by 50%.</li> <li>• Improved recruiter productivity.</li> <li>• Faster interview scheduling.</li> <li>• Increased candidate satisfaction.</li> <li>• Reduced manual errors.</li> <li>• Higher recruitment efficiency.</li> </ul>                                          |

## Problem – Solution Flow

## Key Insights

- The proposed solution addresses the major challenges of traditional recruitment by automating repetitive tasks and centralizing recruitment data.
- Agentforce AI provides intelligent candidate summaries and hiring recommendations to support decision-making.
- Salesforce Flows and Approval Processes streamline interview scheduling, approvals, and notifications.
- The solution benefits both recruiters and candidates by making the recruitment process faster, more transparent, and more efficient.
